PROFESSIONAL SUMMARY

Diligent and eager to learn. Along with team experience and a client first mindset, always making sure to keep things as simple and consistent as possible. Background in team oriented labor, tech, and service in both English and Spanish.

EDUCATION

Certificate in Full-Stack Web Development – December, 2022

CareerFoundry GmbH – Online Bootcamp

PROJECTS

myFlix— *Movie App*

- Built an app that allows a user to register an account and view information about movies. Users can also update their information and save movies to a list of favorites.
- Created the **server-side** using *MongoDB* for the database and *Digital Ocean* for the API host..
- Designed the **client-side** using *React* and *React Bootstrap*, keeping users in mind by keeping it simple and clean; goal being familiarity and ease of use.

PROFESSIONAL EXPERIENCE

Polywood, Syracuse, IN— *Picker*

June, 2021 - January, 2022

- Sorted items, collected and transported product to final staging areas; Scanned the product into its proper location.
- Trained new staff, ensuring they understood the process and followed proper protocol; also checking in on them after their training period for help if necessary.
- Stacked, measured and assembled product before delivering to final stage, always keeping the final stage members in mind by keeping the load as organized and easy to manage as possible.

Beer Dairy Inc, Milford, IN— *Farm Hand*

June, 2018 - May, 2021

- Operated heavy machinery when working outside the parlor
- Trained new staff with patience and diligence, insuring all their questions were answered during and after their training period
- Checked fields for rocks or other obstacles to prepare the land for tilling and physical preparation for spring planting.
- Handled ~8-900 cows per-shift, looking into machine problems and feeding calves when necessary.
